# THE CONTEXT OF HIGHER EDUCATION IN THE UK

There are 4 key events that  
influenced the graduate  
attributes agenda in the UK.

KEY EVENT

# END OF THE BINARY SYSTEM

Dearing (1997)

Increasing overlap between  
universities and polytechnics.

The Further and Higher  
Education Act granted university  
status to 35 polytechnics and to  
other institutions.

This marked the end of the  
binary system.

1992

KEY EVENT

# THE DEARING REPORT

Dearing (1997)

Remembered for changes in  
tuition system.

Encourages partnerships  
between universities and  
industry.

Discusses the importance  
graduate attributes.

1992

1997

“

Apart from the key skills of  
**communication**, numeracy and  
**capability in communications and  
information technology**, those in work  
increasingly need to be able to be  
**flexible** and **adaptable**, to **work in  
teams**, and to **manage their own  
development and career**.

”

Dearing (1997, p. 75)

KEY EVENT

# GAs INTRODUCED IN ENGLAND

By the Higher Education  
Funding Council for England.

1992  
1997  
2003

KEY EVENT

# GAs INTRODUCED IN SCOTLAND

By the Scottish Funding  
Council: *The Scottish Quality  
Enhancement Framework.*

1992  
1997  
2003  
2008

P R E S E N T

# CURRENT SITUATION

Most universities have  
graduate attributes.

Most used implementation  
strategy: Curriculum Mapping.

A skills-gap is still frequently  
reported (Arslan, 2018).

Progress has been 'slow' and  
'patchy' (de la Harpe, 2012).

NOW

## WHY IS PROGRESS SLOW?

➤ STAFF'S VIEW OF GRADUATE  
ATTRIBUTES MATTERS  
(Barrie, 2006)

➤ UNIVERSITIES SHOULD OFFER  
STAFF MORE TRAINING  
(Green et al., 2009)

➤ CULTURAL DEVELOPMENT WITHIN  
INSTITUTIONS IS NEEDED  
(Green et al., 2009)

1992

THE DATA WE OBTAINED

e.g. Frequency data for 'DECISION MAKING'

S T U D Y 2

# CATEGORISATION SURVEY

THE DATA WE OBTAINED

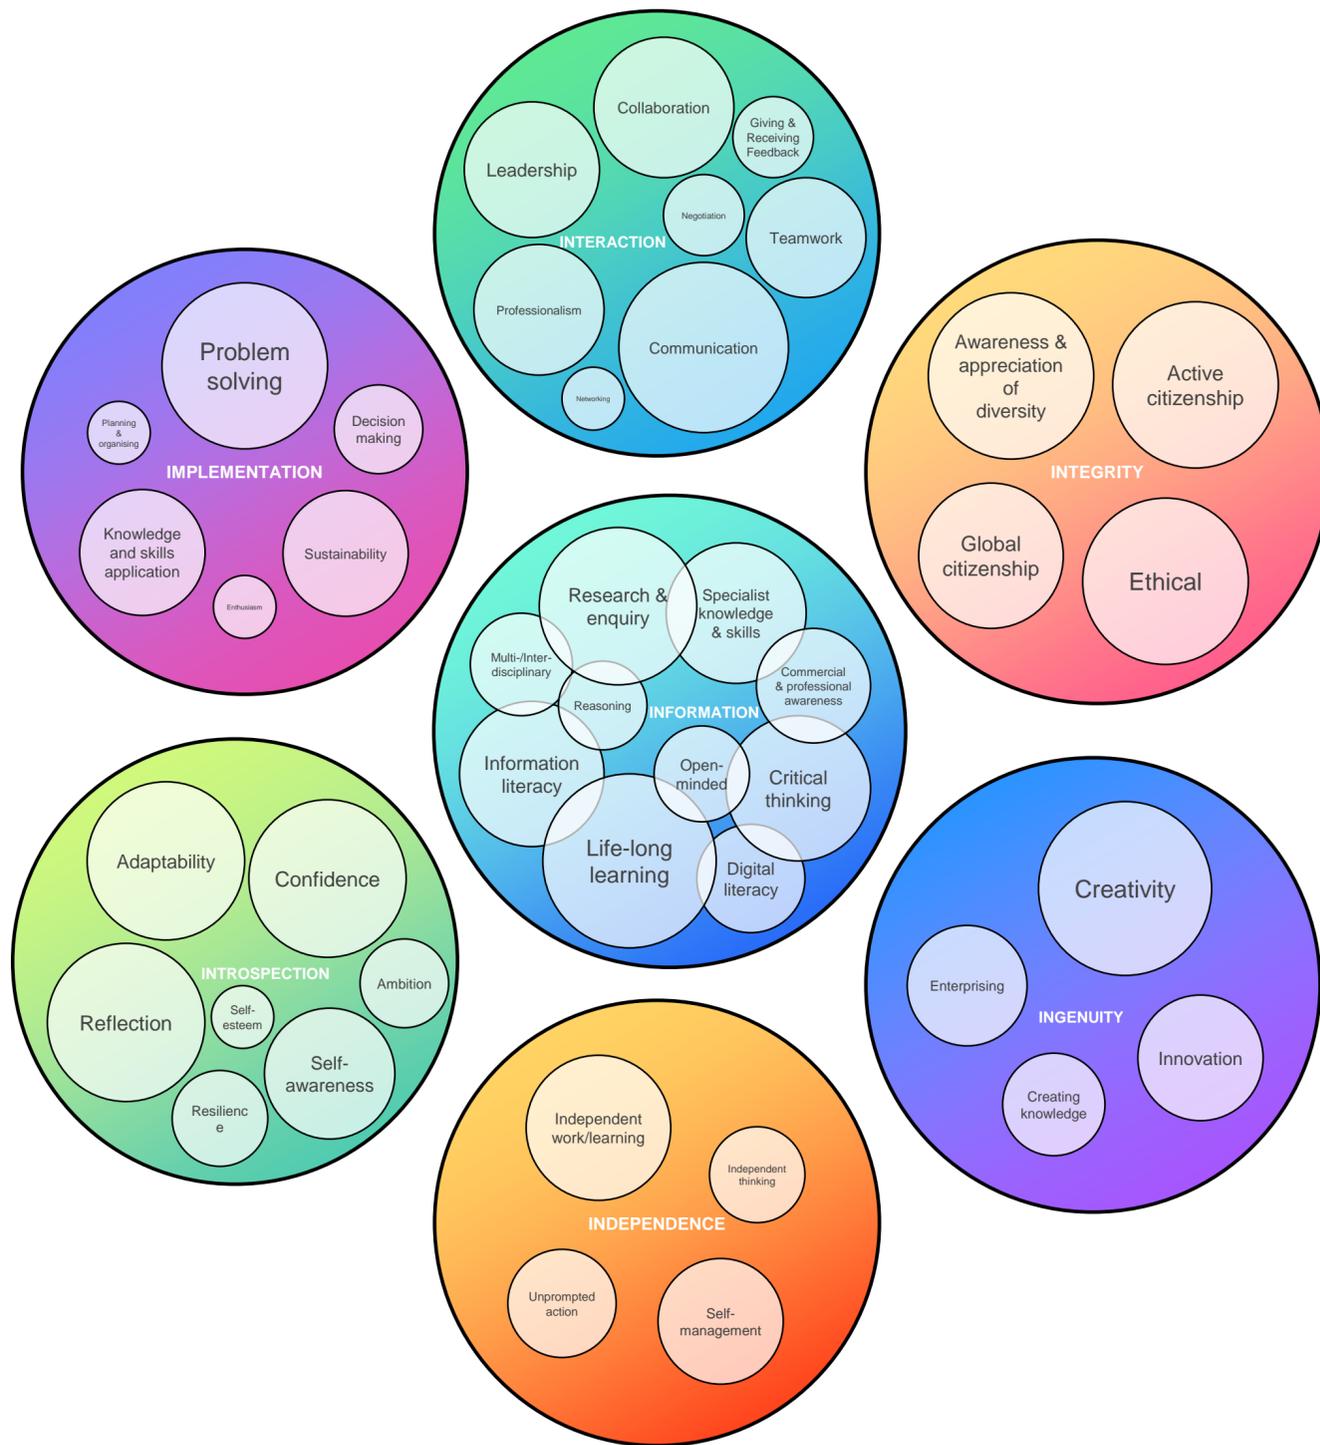

e.g. Qualitative data for 'DECISION MAKING'

- INTERACTION**  "involves taking other people into consideration and having their opinions taken into account"
- INTEGRITY**  "Understanding what type of decision is being made is critical and this comes from personal integrity"
- INTROSPECTION**  "A person can develop decision-making skills but their competence may relate to their personality."
- INDEPENDENCE**  "Having a clear decision making ability involves the ability to be sure of yourself and your judgement"
- INGENUITY**  "their ability to process (...) different sides of an argument in order to make a decision may take some ingenuity"
- INFORMATION**  "To be able to make decisions you need to have all the information."

# NEXT STEPS

## SEMANTICS SURVEY

AIM: Validating and refining the names and descriptions of the GAs and categories.

## BEHAVIOURAL MARKERS STUDY

AIM: To identify a set of behavioural markers for attributes that can only be measured through observation.
